## DIAMOND SAW BLADES MGS-90-01H

**1.0 DESCRIPTION.** This specification covers professional grade segmented diamond saw blades of various diameters to fit concrete saws.

### **2.0 MATERIALS.**

**2.1 General.** Diamond saw blades shall be of the type designated in the bid request, designed for use in cutting, sawing, or grooving the following pavements. In addition to normal manufacturing labeling, all blades shall be mechanically stamped or engraved with the year manufactured, country of origin including "USA" or "United States of America" when manufactured in the U.S.A., and color coded for type of blade as noted.

**2.1.1 Type I.** Type I shall be for use in steel reinforced Portland cement concrete containing limestone aggregate and color-coded white.

**2.1.2 Type II.** Type II shall be for use in steel reinforced Portland cement concrete containing siliceous gravel aggregate and color-coded blue.

**2.1.3 Type III.** Type III shall be for use in asphalt pavement and color-coded black.

**2.2 Blade Blank (Core).** The blades shall be slotted, heat treated and tensioned, new and unused steel, and run true when used in accordance with the manufacturer's recommendation for operating rpm. The blades shall be of a quality that will resist warping, bending, splitting or cracking. The blades shall have the standard arbor and drive pinholes as required for the specified blade diameter.

### **2.3 Blade Segments.**

**2.3.1** The total diamond bearing segment length shall be a minimum of 85 percent of the finished blade circumference. The individual diamond segments shall be permanently secured or bonded to the blade core by laser welding or silver soldering. The design of the blade and segment shall be such as to permit complete wearing and full use of the diamond concentrations forming the cutting edges, with slots for flushing material cuttings.

**2.3.1.1** The diamond bearing segments without the mounting backer, if used, shall have a width of  $0.187 \pm 0.015$  inches or  $0.325 \pm 0.015$  inches or  $0.375 \pm 0.015$  inches as specified in the bid request and a minimum depth of 0.375 inch.

**2.3.1.2** The segment's matrix hardness shall be the manufacturer's standard metallurgical bond for the type of blade specified. The matrix shall be designed for the proper cutting ability for the blade type specified. This design information (type of aggregate, etc.) will be furnished upon request after the bid award but prior to delivery to the designated shipping locations.

**2.3.2** Segment diamonds shall be 100% virgin synthetic diamonds certified to a minimum quality grade of General Electric MBS 950 Series. The segment diamonds shall be within the 30-40 and 40-50 mesh size of ANSI code B74.16 with no more than 8% retained on the 30 and no more than 8% passing the 50.

**2.3.2.1** The recoverable diamond concentration in the segments shall be a minimum of 42 %, based on the standard of 72 carats per cubic inch of diamond bearing volume as equaling 100%

concentration. The diamonds shall be distributed uniformly throughout the depth and length of each segment to provide uniform wear for the life of the blade.

**3.0 TESTING.** Two blades will be selected at random of each size and type ordered and tested for compliance with this specification and in accordance with the following methods. The blades selected for testing will be returned to the supplier for repair or replacement at no additional cost.

**3.1 Diamond Size.** The diamonds removed will be sieved to determine conformance with the size requirements.

**3.2 Diamond Content.** The bond will be dissolved and the diamonds will be weighed to determine compliance with the recoverable diamond concentration requirements.

**3.3 Segment Dimensions.** The segments will be measured for compliance with the segment length, width and depth requirements.

#### **4.0 ACCEPTANCE.**

**4.1** The supplier shall furnish to the engineer a manufacturer's certification for each shipment showing specific test results complying with the material and quality requirements of these specifications for each type of blade being furnished.

**4.2** Acceptance of the blades will be based on a satisfactory manufacturer's certification and tests performed by the engineer.

**4.3** If any of the requirements and/or specifications are not met, all blades covered by the purchase order will be subject to rejection.

**5.0 PACKAGING AND MARKING.** Unless otherwise stated, normal commercial packaging and packing will be acceptable. All packing shall be adequate to protect contents from damage. Shipping containers shall be marked to show contents, name of vendor, agency, and purchase order number, and the country of origin including "USA" or "United States of America" when manufactured in the U.S.A.

**6.0 DELIVERY.** Failure to comply with quoted delivery schedule may result in cancellation of order or forfeiture of a performance bond.

**7.0 WARRANTY.** The supplier agrees to replace or repair any blades free of any charge if the laser weld bond fails between the segment and the core during the useful life of the blade, or if the silver solder bond fails between the segment and the core within the first .050 inches of segment wear, depending on which type of blade is furnished. The supplier agrees to replace any blade that cracks or warps as a result of material defects during the initial 25% of the blade life.

**7.1** This warranty is not intended to cover abuse to or misapplication of the blade.

#### **8.0 ORDERING.**

**8.1** Blades are to be ordered by type, inches of diameter and width of blade.

**8.2** The blades require inspection and acceptance by Materials at destination, prior to use.

- a. The Contractor shall comply with the Regulations relative to nondiscrimination in federally-assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.
- b. All solicitations either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials or leases of the Contractor's obligations under this contract and the Regulations, will be relative to nondiscrimination on the grounds of race, color, or national origin.

- b. The Contractor agrees and understands that the contract shall constitute an assignment by the Contractor to the MHTC of all rights, title and interest in and to all causes of action that the Contractor may have under the antitrust laws of the United States or State of Missouri for which causes of action have accrued or will accrue as the result of or in relation to the particular equipment, supplies, and/or services purchased or produced by the Contractor in the fulfillment of the contract with the MHTC.

**Cancellation of Contract**

- a. The MHTC may cancel the contract at any time for a material breach of contractual obligations or for convenience by providing the Contractor with written notice of cancellation. Should the MHTC exercise its right to cancel the contract for such reasons, cancellation will become effective upon the date specified in the notice of cancellation sent to the Contractor.

Missouri Highways and Transportation Commission  
Standard Bid/Proposal Provisions, General Terms and Conditions and Special Terms and Conditions

- b. If the MHTC cancels the contract for breach, the MHTC reserves the right to obtain the equipment, supplies, and/or services to be provided pursuant to the contract from other sources and upon such terms and in such manner as the MHTC deems appropriate and charge the Contractor for any additional costs incurred thereby.

**Bankruptcy or Insolvency**

Upon filing for any bankruptcy or insolvency proceeding by or against the Contractor, whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assigned the benefit or creditors, the Contractor must notify MoDOT immediately. Upon learning of any such actions, the MHTC reserves the right, at its sole discretion, to either cancel the contract or affirm the contract and hold the Contractor responsible for damages.

**Inventions, Patents, and Copyrights**

- a. The Contractor shall defend, protect, and hold harmless the MHTC, its officers, agents, and employees against all suits of law or in equity resulting from patent and copyright infringement concerning the Contractor's performance or products produced under the terms of the contract.

**Inspection and Acceptance**

- a. No equipment, supplies, and/or services received by MoDOT pursuant to a contract shall be deemed accepted until MoDOT has had reasonable opportunity to inspect said equipment, supplies, and/or services.
- b. All equipment, supplies, and/or services which do not comply with the specifications and/or requirements or which are otherwise unacceptable or defective may be rejected. In addition, all equipment, supplies, and/or services which are discovered to be defective or which do not conform to any warranty of the Contractor upon inspection (or at any later time if the defects contained were not reasonably ascertainable upon the initial inspection) may be rejected.
- c. The MHTC reserves the right to return any such rejected shipment at the Contractor's expense for full credit or replacement and to specify a reasonable date by which replacements must be received.
- d. The MHTC's right to reject any unacceptable equipment, supplies, and/or services shall not exclude any other legal, equitable or contractual remedies the MHTC may have.

**Warranty**

- a. The Contractor expressly warrants that all equipment, supplies, and/or services provided shall: (1) conform to each and every specification, drawing, sample or other description which was furnished to or adopted by MoDOT, (2) be fit and sufficient for the purpose expressed in the solicitation documents, (3) be merchantable, (4) be of good materials and workmanship, and (5) be free from defect.
- b. Such warranty shall survive delivery and shall not be deemed waived either by reason of the MHTC's acceptance of or payment for said equipment, supplies, and/or services.

**Status of Independent Contractor**

- a. The Contractor represents itself to be an independent Contractor offering such services to the general public and shall not represent itself or its employees to be an employee of the MHTC. Therefore, the Contractor shall assume all legal and financial responsibility for taxes, FICA, employee fringe benefits, workers' compensation, employee insurance, minimum wage requirements, overtime, etc., and agrees to indemnify, save and hold the MHTC, its officers, agents and employees harmless from and against any and all losses (including attorney fees) and damage of any kind related to such matters.

**Indemnification**

- a. The Contractor shall be responsible for injury or damages as a result of any services and/or goods rendered under the terms and conditions of this Agreement.
- b. In addition to the liability imposed upon the Contractor on the account of personal injury, bodily injury, including death, or property damage, suffered as a result of the Contractor's performance under this Agreement, the Contractor assumes the obligation to save harmless the Commission, including its agents, employees and assigns, and to indemnify the Commission, including its agents, employees and assigns, from every expense, liability or payment arising out of such wrongful or negligent act or omission, including legal fees.
- c. The Contractor also agrees to hold harmless the Commission, including its agents, employees and assigns, from any wrongful or negligent act or omission committed by any subcontractor or other person employed by or under the supervision of the Contractor for any purpose under this Agreement, and to indemnify the Commission, including its agents, employees and assigns, from every expense, liability or payment arising out of such wrongful or negligent act or omission.

**SPECIAL TERMS AND CONDITIONS**

**Required Specifications**

- a. All materials, equipment, and/or services bid upon must comply with the attached MoDOT Specification #MGS 90-01H and any other provisions outlined in the solicitation documents.

**Award**

- a. Award of this bid/quote/proposal will be made on an "All Or Nothing" basis using the "lowest and best" principle of award.

**Liquidated Damages**

- a. In the event the successful Contractor fails to deliver the material within the time specified, the Department and the public will sustain damages because of such delay in delivery, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that the **sum of one-hundred dollars (\$100.00) per day, per item**, for each assessable calendar day on which the delivery has not been completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the Contractor or otherwise collected from the Contractor as liquidated damages.
