A Question was asked that is considered to be of interest to all potential responders.

- Per sheet 10 of 16 it references patching utilities and asphalt repairs to pavement crack. Is there a specified quantity? SF or SY? Is there really any asphalt patching or is this just a sealing and striping job? I have looked at the parking lots and patching could be filling 2-3 potholes with asphalt or it could turn into a remove and replace deteriorated areas.

MODOT RESPONSE: The project will be sealing and striping only. No asphalt repairs. Cracks will be sealed using MoDOT forces.
