**QUESTIONS/CLARIFICATIONS**

**Page 5, Section 2.1.1.**

**Question:** Would the Missouri Department of Transportation consider changing the pixel matrix requirement from 36x105 to 27x105, or at least allow vendors to bid on such a matrix?

**Answer:** We will not consider reducing the pixel size at this time. All our existing DMS located on the interstates are currently 36X105. We would like to keep the option of a 4<sup>th</sup> line available on the DMS within the metropolitan area.
