## **Route 150 Resurfacing Begins June 3 MoDOT Urges Caution During Project**

LEE'S SUMMIT, Mo. – Motorists traveling Route 150 between Route 71 and Route 291 should slow down and be alert for construction crews beginning Saturday, June 3 when resurfacing work begins.

Milling of old pavement will precede repaving work. Construction will be from 9 a.m. to 9 p.m. through mid-June. Flaggers will alternate one-way traffic on the two-lane highway during construction. Variable message signs will alert motorists approaching the construction zone.

More than seven miles of Route 150 will be resurfaced. Following the resurfacing, crews will return to bring crushed-rock shoulders up to pavement level and restripe the highway. APAC-Kansas, Inc. is the contractor.
