## **REQUEST FOR LETTERS OF INTEREST FOR DESIGN-BUILD SERVICES**

The Missouri Department of Transportation (MoDOT) is soliciting Letters of Interest from companies interested in providing Design-Build services for the I-70 Manchester Bridge Replacement, in Kansas City, Missouri.

The project's primary purpose is to replace the I-70 bridge over Manchester Trafficway, the Blue River and adjacent railroad tracks and also replace the Route 40 bridge over the Blue River.

One Design-Build team will be selected to design and construct the project consistent with the documented Categorical Exclusion. In addition to design and construction, quality management, maintenance of traffic and environmental management may be included as part of the contract. MoDOT will use a Best Value selection process to evaluate the ability of the Design-Build proposers to meet or exceed the project goals:

- Impress our customers through innovative solutions that conveniently and efficiently move drivers through the project during and after construction.
- Construct durable structures that minimize future maintenance impacts.
- Balance regional mobility with total project cost to achieve optimal value.
- Deliver the project no later than December 15, 2016.

**An informational meeting is scheduled from 3 to 5 p.m. Tuesday, January 8, 2013, at the Gamber Center, 4 SE Independence Avenue, Lee's Summit, MO. 64063.** It is anticipated the Request for Qualifications (RFQ) will be released this same day. At the meeting, a presentation will be made on the project, followed by a question and answer period and time for networking.

Firms interested in receiving I-70 Manchester Bridge Design-Build information should send a one-page **Letter of Interest** to MoDOT by registered mail, or similar delivery method that indicates proof of receipt, no later than December 31, 2012, to ensure that you receive all information. An email will also be accepted to [ManchesterBridge@modot.mo.gov](mailto:ManchesterBridge@modot.mo.gov). The Letters of Interest will allow MoDOT to compile a list of interested companies for notices and any announcements relating to the Manchester Bridge Design-Build Project.
