

# WHAT IMPROVEMENTS ARE NEEDED?

- **Improve Safety**

- Provide standard twelve-foot lanes
- Provide full shoulders
- Separate bicycles and pedestrians from vehicular traffic

- **Add Capacity**

- Provide four lanes (two north and two south) for traffic crossing the river
- Provide a separate lane for bicyclists and pedestrians

- **Improve Reliability**

- Eliminate maintenance issues that require periodic closure of the bridge
- Elevate the roadway above the floodplain on the north side of the river

- **Others?**
