

SE0670: Marquand Maintenance Facility in Madison County

There are several structures on the subject property, including a five-bay garage, three-bay shed, pole/plywood lined salt bin, pipe frame equipment hoist shelter, and a concrete fuel containment basin that contains two large tanks, two fuel pumps and one large freestanding salt tank.

5-Bay Garage: The main building contains a shop space with space heaters, restrooms and an office. It is a concrete block structure with a concrete floor. The building has a truss frame roof with composite shingles. The building measures 75' x 36' (2,700 sq. ft.). Manual lift overhead doors are 12' wide x 11' high.

3-Bay Shed: This structure has a 2' x 6' frame with wooden siding, a composite roof, exposed studs inside and a concrete floor. The building has three 12' x 12' rolling corrugated metal doors. There is a small, roughly finished room on the east side, which could be heated for painted storage.
