

## Progress you can feel

This construction guide is published by the Missouri Department of Transportation as an aid for motorists. It offers descriptions of various projects currently under development by MoDOT, so that you may better plan your journey over Missouri interstates and highways.

MoDOT crews and contractors will be working day and night this year in order to complete the "Smooth Roads Initiative" by the end of 2006 - one year ahead of schedule. That means thousands of work zones across the state. But the inconveniences you'll experience this year will pay off in long-term benefits of smoother and safer Missouri highways.

*Although not a complete list of MoDOT construction projects, this map offers a thorough overview of major projects that will affect traffic across the state.*

## MoDOT will help you navigate

- Look for changeable message boards with project information and delay times.
- Be alert for construction updates on TV and radio and in newspapers.
- Check MoDOT's web site for the latest information - [www.modot.org](http://www.modot.org).
- Call MoDOT Customer Service Centers toll-free - 1-888-ASK-MoDOT.

In the St. Louis area, call the traffic information hotline at 1-888-511-4STL or check [www.gatewayguide.com](http://www.gatewayguide.com) for real-time traffic information and live camera views.

In Kansas City, [www.kcscout.net](http://www.kcscout.net), is your source for real-time traffic info.

In Springfield, it's [www.ozarkstraffic.info](http://www.ozarkstraffic.info).

## What you can do

- Think ahead, allow extra time and be patient and courteous.
- Always buckle up.
- Pay attention to traffic situations and road conditions.
- Merge into the proper lane as directed.
- Follow posted speed limits. Higher fines could apply.
- Know alternate routes.
- Drive sober.
