

# Exhibit II-4C Preferred Alternative Map

Route WW is planned to be a major arterial west of the Route 740 extension and a minor arterial east of the Route 740 extension. For planning and impact evaluation purposes it is depicted here as a four lane roadway with a center turn lane, driveway access and at grade intersections. The actual design configuration of this roadway is subject to modification based on future funding constraints and/or practical design considerations.

Footprint of Preferred Alternative

Improved Rolling Hills Road (by others)
