

# U.S. Route 54 at Linn Creek Intersection Improvements

## Frequently Asked Questions

### Q. What is the purpose of this project?

A. MoDOT proposes to make improvements along Route 54 at the intersections of Route V and at Business Park Road/East Valley Drive. The improvements are designed to reduce the number and severity of crashes occurring at both locations as motorists enter and exit Route 54.

### Q. What is the project cost?

A. The intersection improvements will cost approximately \$947,000.

### Q. When will work take place and how will traffic be handled during the work?

A. Work on the intersections could begin in fall 2010. Lane closures may be needed to complete the work and some minor delays should be expected.

### Q. What will the speed limit be after the proposed improvements are made?

A. The speed limit will remain 55 mph through the area, just as it exists today.

### Q. Will additional right of way be needed to construct this project?

A. Right of way and easements are needed to complete work. For those property owners affected, we encourage you to reference the MoDOT brochure titled "Pathways for Progress." This brochure outlines the process and should answer most of your questions. If you have questions after reading the brochure, our Right of Way staff will be pleased to assist you. They can be reached by calling MoDOT toll free at 1-888-ASK-MODOT (275-6636).

### Q. How do I learn more?

A. You may learn more about this project by contacting us toll free at 1-888-ASK-MODOT (275-6636) or visiting our Web site at [www.modot.org/central](http://www.modot.org/central).
