

# 800 Better Bridges

## Community Briefing

Route D and Route JJ Bridges in Morgan County  
4:30 p.m.— 6 p.m., January 7, 2009

## Frequently Asked Questions

### 1. What is the Safe & Sound Bridge Improvement Program?

Safe & Sound is an innovative program developed to replace or rehabilitate more than 800 of MoDOT's most worn-out bridges in five years. Since 2009, more than 100 of these bridges have already been completed. MoDOT will sell bonds to pay for the program, with annual payments of approximately \$50 million. MoDOT will use roughly one-third of the federal bridge replacement funds it receives each year to make those payments. The Safe & Sound program requires no additional funding.

### 2. How many bridges are included in the Safe & Sound program in the central Missouri area?

Ninety bridges in the central Missouri area are included in the program and scheduled for improvement by the end of 2014. Nineteen of the mid-Missouri bridges have already been completed. The [Route D and Route JJ bridges over Richland Creek in Morgan County](#) are being featured at tonight's meeting. The Route D bridge is located approximately 2.6 miles south of U.S. Route 50. The Route JJ bridge is two miles west of Route D.

The Route JJ bridge is part of a design/build contract awarded to KTU Constructors to build 554 new bridges by the end of 2013 at a cost of \$487 million. MoDOT is completing the remaining 248 bridge contracts, including Route D, using innovative contracting methods.

### 3. What type of improvements are planned for the bridges featured at tonight's meeting?

The bridge deck on Route D will be replaced and work will be completed within the existing right of way. Workers will replace the entire bridge on Route JJ.

### 4. How will traffic be handled during construction?

To speed construction and save money, the bridges will close to traffic during construction. For the Route D bridge, the contractor can begin the work at any time between spring and fall 2010. Once Route D has been closed, work must be completed within 40 days. For the bridge on Route JJ, work is scheduled to take place in mid-summer through early fall 2010 and take approximately two months to complete. Traffic will be detoured around the work areas.

### 5. Who do I contact for more information?

The public is always encouraged to contact MoDOT toll free at [1-888-ASK-MoDOT \(275-6636\)](tel:1-888-ASK-MoDOT) with questions and comments. Information about Safe & Sound and a complete listing of bridges included in the program can be found on our Web site at [www.modot.org/safeandsound](http://www.modot.org/safeandsound).

## Signs of Improvement!

Safe & Sound signs are posted on all bridges included in the program to notify the public of bridges scheduled for improvement. Thirty days prior to the start of construction, signs displaying a brief description of the work as well as the completion season and year will be installed.

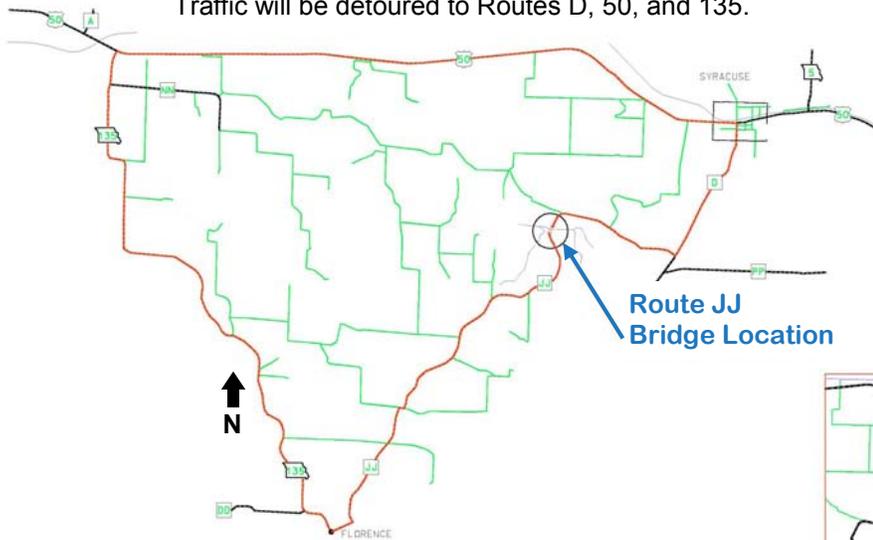

The following bridges are being featured at tonight's meeting:

## Route D & Route JJ Bridges, Morgan County

### Route JJ Detour Route

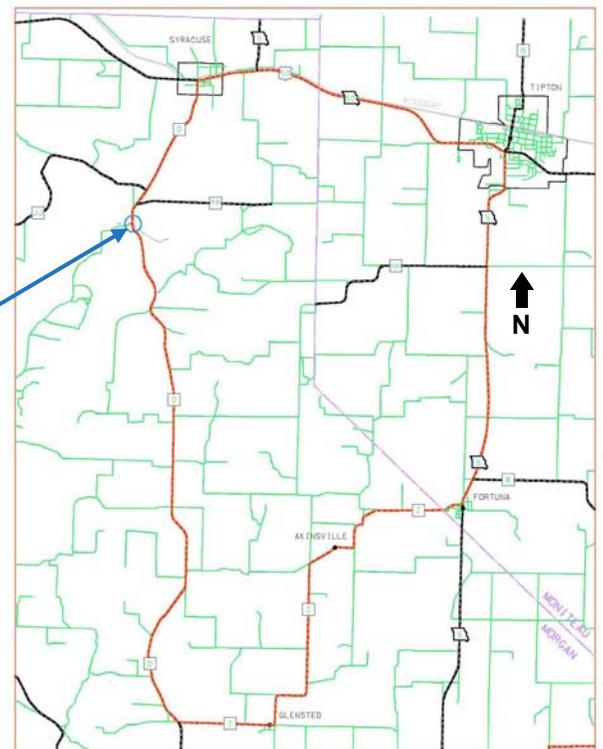

Traffic will be detoured to Routes D, 50, and 135.

Route JJ  
Bridge Location

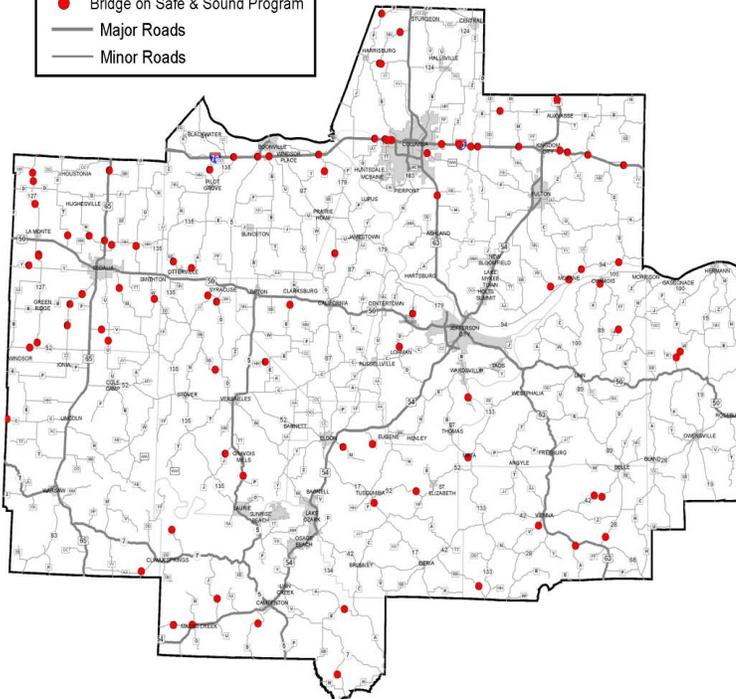

### Route D Detour Route

Traffic will be detoured to Routes 50, 5 and Z.
