

800 BetterBridges

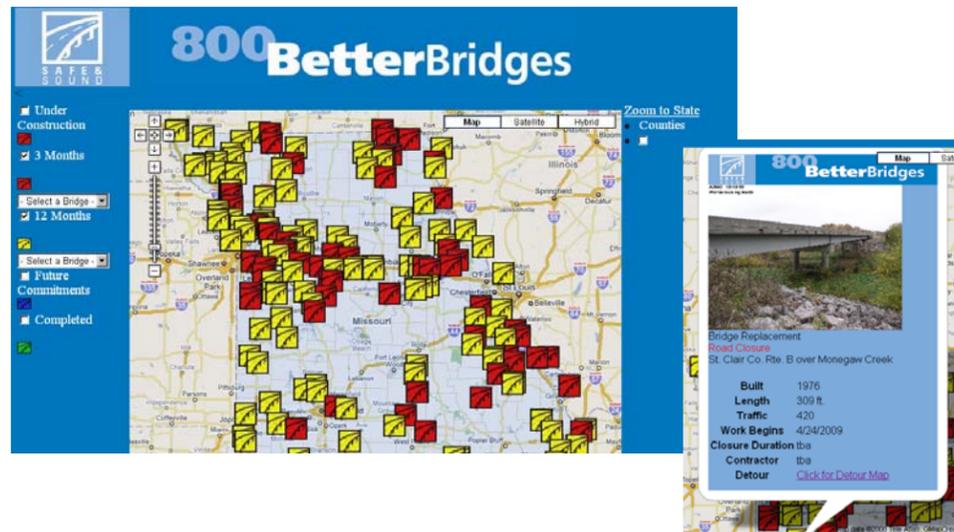

Detour Routes

In order to cross the interstate, motorists will be detoured along I-70 to the next adjacent interchange. Adjacent interchanges will not be closed at the same time.

Construction Status

Log on to www.modot.org/safeandsound to learn more about the Safe & Sound program. An interactive map showing the status of bridge improvements will be available online later this winter. To talk with a member of our staff, call 1-888-ASK-MoDOT (275-6636).

Frequently Asked Questions

1. What is the Safe & Sound Bridge Improvement Program?

Safe & Sound is an innovative program developed to replace or rehabilitate more than 800 of MoDOT's most worn-out bridges in five years. At least 100 of these bridges are to be under construction in early 2009. MoDOT will sell bonds to pay for the project, with annual payments of approximately \$50 million. MoDOT will use roughly one-third of the federal bridge replacement funds it receives each year to make those payments. The Safe & Sound program requires no additional funding.

2. How many bridges are included in the Safe & Sound program in the central Missouri area?

Ninety bridges in the central Missouri area are included in the program and scheduled for improvement within the next five years. The following bridges are being featured at tonight's meeting and are among some of the first bridges to be addressed:

Callaway County

- Route J bridge over Interstate 70
- Route M bridge over Interstate 70
- Route JJ bridge over Interstate 70
- Route D bridge over Interstate 70

Cooper County

- Route 41 bridge over Interstate 70
- Route 5 bridge over Interstate 70
- Route 179 bridge over Interstate 70

The cost for improvements to the Callaway County bridges listed is approximately \$2.2 million. Improvements to the Cooper County bridges cost approximately \$2.3 million.

3. What type of improvements are planned for the bridges featured at tonight's meeting?

The bridge deck on each of these bridges will be replaced and work will be completed within the existing right of way.

4. How will traffic be handled during construction?

To speed construction and save money, the bridges will be closed to traffic during construction. Most of these bridges include ramps to and from I-70 and the ramps will remain open to traffic during the work. In order to cross the interstate, motorists will be detoured along I-70 to the next adjacent interchange. Work is planned during the spring, summer and fall seasons in 2009. Each bridge is expected to remain closed for 30 to 50 days and adjacent interchanges will not be closed at the same time. One lane of I-70 at the location of bridges under construction will be closed periodically during the work. Please refer to the inside and back of this handout for details.

5. Who do I contact for more information?

The public is always encouraged to contact MoDOT toll free at 1-888-ASK-MoDOT (275-6636) with their questions and comments. Information about Safe & Sound and a complete listing of bridges included in the program can be found on our Web site at www.modot.org/safeandsound.

The following bridges are being featured at tonight's meeting:

Callaway County

- Route J bridge over Interstate 70
- Route M bridge over Interstate 70
- Route JJ bridge over Interstate 70
- Route D bridge over Interstate 70

Cooper County

- Route 41 bridge over Interstate 70
- Route 5 bridge over Interstate 70
- Route 179 bridge over Interstate 70

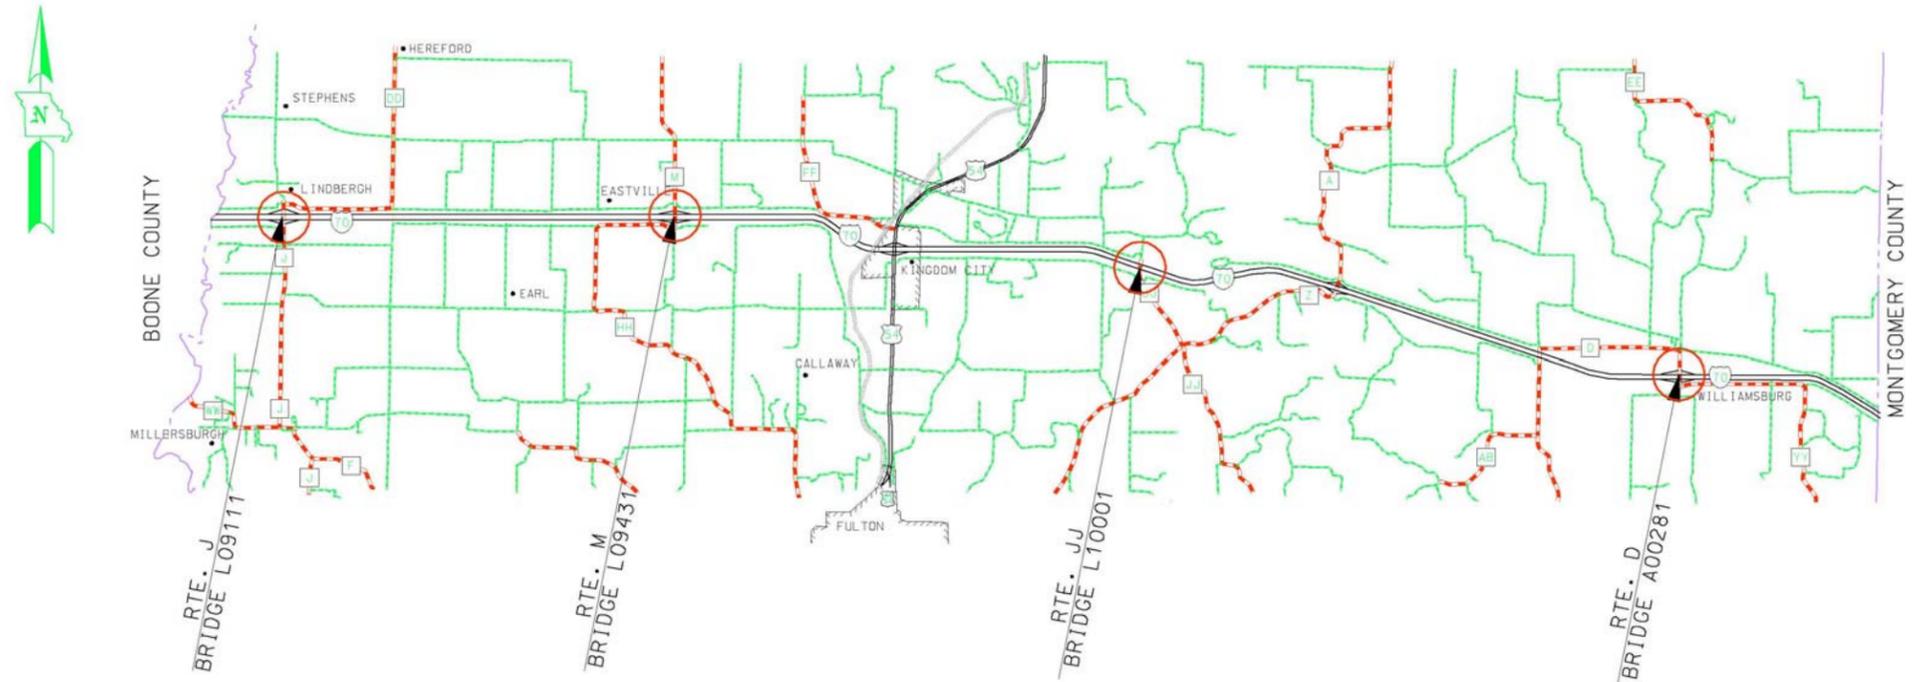

Signs Of Improvement!

Safe & Sound signs are posted on all bridges included in the program to notify the public of bridges scheduled for improvement.

Thirty days prior to the start of construction, signs displaying a brief description of the work as well as the completion season and year will be installed.
