

Potential Interchange Locations

Alternative 1:

This option would be located approximately 1.1 miles south of the existing MO-92 interchange, along the current 19th Street/NE144th Street alignment.

Alternative 2:

This option would be located approximately 2.2 miles south of the existing MO-92 interchange, in the vicinity of the current NE 136th Street alignment. New local roads would need to be constructed, within the corridor shown, in order to connect the new interchange into the existing road network.
