

Potential Transit Stop (plan view)

Potential Transit Stop (perspective view)

Potential Transit Stops
 With an ATA bus route along the corridor, there are several stops, yet many are without sidewalk access. At a minimum, transit stops will include an accessible route to the stop, signage, and paved access to curb edge. Amenities may be provided and could include benches, trash receptacles and landscaping, as shown above.

Existing Transit Conditions (see plan)

Aerial

Accents
 Landscaping may enhance the road improvements and could include shrub, perennial and/or annual plantings, architectural features, etc.

Roundabouts
 At a minimum, roundabouts would include turf and/or groundcovers. Other enhancements may include trees, shrubs and accent plantings, low walls, earthen mounding, art, and/or monumentation.

Street Trees
 Proposed improvements include, at a minimum, shade trees, ornamental trees and groundcovers.
